AN ACT

To set requirements for the governor's city inspections

Be it enacted by the General Assembly of Missouri Boys State, as follows:

Section 1. Specific guidelines set for the governor's city inspections allowing cities to know what is scored and to what standard the rooms are to be kept. These guidelines would include bed uniformity, storage areas closed, and proper organization of supplies and materials (these include towels being hung on racks, papers being organized on desks, and hygiene materials stored properly in bathrooms and sinks). This bill would set strict guidelines for the governor to base his city inspections on that are fair to citizens as well as keep the city in order.
